### **Panamericano Buenos Aires Hotel**

Located in the downtown area, the Panamericano Buenos Aires Hotel & Resort is at the hub of the city with some of the most spectacular attractions at your doorstep. Enjoy the landmark Obelisk, the magnificent Colon Theatre, the new, upscale shopping center, Gallerias Pacifico on Florida Street and plenty of nightlife, clubs, theater and cinemas, great restaurants and some quiet, quaint plazas with fountains and statues.

The Hotel has two towers which face the historic centre of the city, decorated in the restrained luxurious style of the early 20th century, the golden days of Buenos Aires, when close to everything was imported from Europe as part of that enthusiastic drive that built manors and palaces that afford Buenos Aires that European air that sets it apart from the rest of the Latin-Americans capital cities.

The two buildings total 362 rooms decorated with antiques and original prints. Among its 20 Rooms for events the Gran Salón Panamericano stands out, with its stunning crystal chandeliers, veritable replicas of those which hang in the Salón Dorado of the Colón Opera House, redesigned in California and hand crafted in Belgium.
